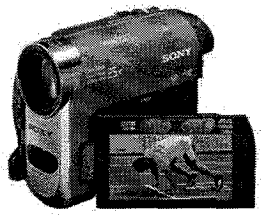
Eagle Eye Digital Video – www.EagleEyeDV.com

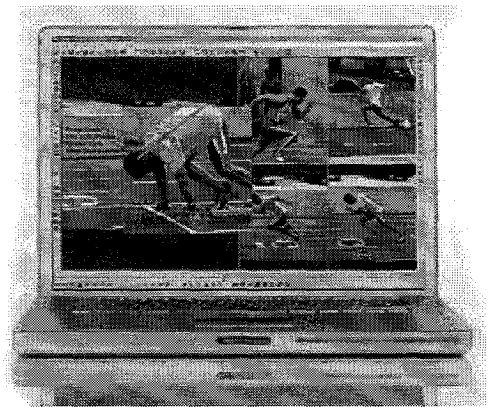
EAGLE EYE Digital Video

Coaches agree, video analysis plays a vital role in today's successful athlete's.



As Easy as 1-2-3...

Eagle Eye software makes technical analysis easier and more affordable then ever. Eagle Eye is a fully loaded motion analysis tool with all the sophistication.



1. Capture Video Record a performance on a standard digital camcorder and plug the camera into your computers firewire port (or record live to your computer). Video loads directly into your software ready for review.

2. Analyze Video Choose your clips from the directory and access software features by clicking easily identifiable icons located around the parameter of the screen. Analysis has never been this easy.

3. Create Media Select the feature you want and instantly turn your video into a new media format (.jpg, .png, .wmv, .html, .doc) that can be printed, e-mailed, or posted to the web. You can even create a video lesson by using Eagle Eye's Screen Capture feature - with a click of a button, Eagle Eye will record every action you perform on the screen (including your voice when used with an external microphone) to create a video lesson that can be e-mailed, posted or burned to a CD. Think of it as a video chalkboard.

Share with your Team for FREE

We do what virtually no one else in the industry will do - we give you the ability to pass along an unlimited number of free read-only versions of your software. With your single purchase, your athletes and friends can receive a FREE read-only version to install on their personal computers.

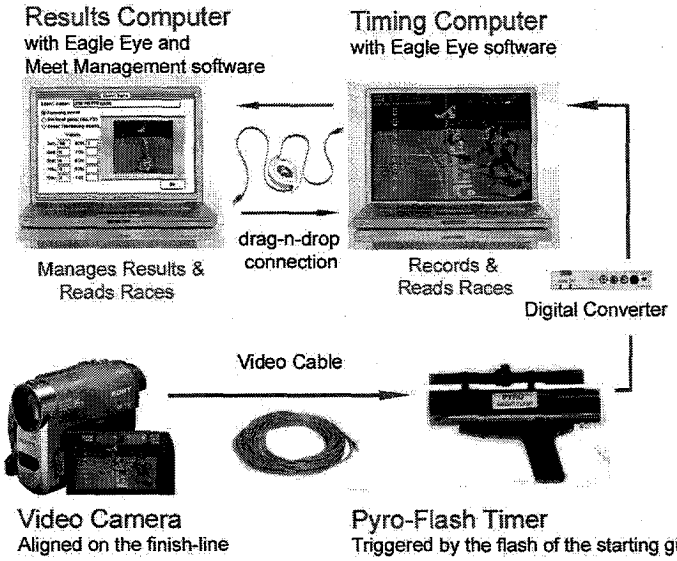
Automatic Timing System *Save Thousands!*

EAGLE EYE Digital Video

Turn your computer into an (F.A.T.) Automatic Timing System

Eagle Eye software brings video timing into the digital age. Now in an easy to use Windows environment, fully automatic timing is a reality for every budget. Eagle Eye meets and exceeds High School requirements for legal automatic timing (F.A.T).



System Set-Up

Use either a one or two computer configuration. Easily keep pace with most track meets with one computer – even run both Eagle Eye timing software and your meet manager software on the same computer – or for large invitationals run Eagle Eye on two networked computers (with single purchase) and have the ability to start the next race immediately after the athletes cross the finish line.

"With this new software, I can train parent-volunteers (who have no timing experience) how to read races in less than 5 minutes. It's that easy".

Accurate

Meets and exceeds high school requirements for fully automatic timing (F.A.T.).

Easy to Use

Designed for coaches, parents and volunteers - not computer people.

Affordable

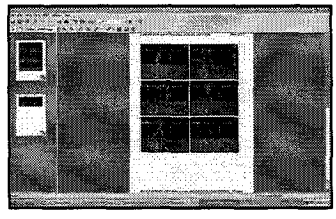
F.A.T. is now affordable for all programs. No need to break the budget with line-scan systems costing thousands of dollars or hire expensive outside timing crews or hand timers.

Compatible

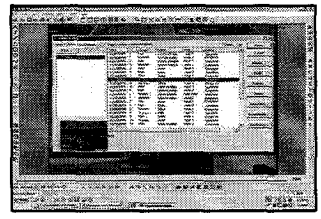
Customized for efficiency and ease of use, Eagle Eye Timing software is completely compatible with RaceberryJam, Hy-Tek Meet Manager, Track Mate - our unique networking cable easily allows both the Eagle Eye and the results computer to work seamlessly together.
(Hy-Tek requires PhotoInterface option).

HY-TEK Ltd Sports Software

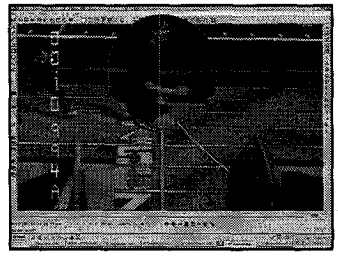
Apple Raceberry JaM



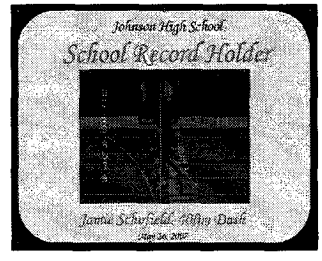
Create optional photo results and proof of performance documents.



Customized race directory for easy recall and operation.



Magnify feature for close finishes



Easily create photo awards and documents,

"Every Coach and AD that observes our use of your software is in awe at how quick and easy it is to obtain results."

pecialized Features
Customized Race Directory for easy recall
Magnify feature for close finishes
Create Photo Results to match athlete with time
Create Proof of Performance documents
Capture finish line image for team Awards
Sell photographs as team fundraiser
Email finish line video to challenging coaches
Eagle Eye Timing software is a complete motion analysis tool. See adjacent page.

Two Great Products at One Great Price!

Eagle Eye timing software includes all the features of our Eagle Eye video analysis product (see ad). Time your track meets on Saturday and use it everyday to help improve your athletes performance.

Required Equipment 1. Eagle Eye Timing Software, 2. Computer (PC with a minimum of 2G RAM, 40G free hard drive space, 3. Firewire input, 4. Video Camera (digital or standard VHS analog video camera with RCA or A/V output. *If digital: Hi8, MiniDV*), 5. Pyro-Bright Flash Timer, 6. Pyro-Flash shells for the starting gun, 7. Digital converter, 8. Video cable (connecting camera to the converter), 10. Specialized File transfer cable (required only if using two computers)
